Respondent No: 367 Login: Anonymous Email: n/a		Responded At: Last Seen: IP Address:	Jul 07, 2018 09:47:57 am Jul 07, 2018 09:47:57 am n/a
Q1. First name	Michael		
Q2. Last name	Field		
Q3. Phone			
Q4. Mobile	not answered		
Q5. Email			
Q6. Postcode			
Q7. Country	not answered		
Q8. Stakeholder type	Individual		
Q9. Stakeholder type - Other not answered			
Q10. Stakeholder type - Staff not answered			
Q11. Organisation name	not answered		
Q12. What is your preferred method of contact?	Email		
Q13. Would you like to receive further information and updates on IFOA and forestry matters?	Yes		
Q14. Can the EPA make your submission public?	Yes		
Q15. Have you previously engaged with the EPA on forestry issues?	No		
Q16. What parts of the draft Coastal IFOA are most important to you? Why?			
Logging of old-growth timber.			

Q17. What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?

not answered

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

not answered

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

not answered

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

not answered

Q21. General comments

Large-scale logging risks changing the ecology. Hazard-reduction burning often occurs in the same -- easiest -- locations, rather than being properly distributed throughout forestry areas, both skewing ecological development and risking major fire damage in unburnt areas in die course.

Q22. Attach your supporting documents (Document 1)	not answered
Q23. Attach your supporting documents (Document 2)	not answered
Q24. Attach your supporting documents (Document 3)	not answered
