- Q1. **First name** Rosemary
-
- Q2. **Last name** Glaisher
-
- Q3. **Phone** [REDACTED]
- Q4. **Mobile** not answered
- Q5. **Email** [REDACTED]
- Q6. **Postcode** [REDACTED]
- Q7. **Country** Australia
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**
not answered
- Q10. **Stakeholder type - Staff**
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** No
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** Yes
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**
Protecting our wildlife, especially endangered species. Maintaining integrity of ecosystems. Maintaining remnant old growth for its intrinsic values as well as iys contribution to water production and climate change mitigation.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**
None. This does not appear to be the intention.

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

'Remapping and rezoning' old-growth for logging; reducing headwater stream buffers; Permitting the logging of giant trees and approximately doubling the intensity of logging in the 'selective harvesting zone'. The intensive harvesting zone will destroy almost half of the mapped high-quality koala habitat in state forests. clearfelling of 140,000 hectares of coastal forests between Grafton and Taree

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

I have no confidence they will be effective.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No. There are no measures proposed to manage environmental values. The only sustainable timber industry is one based on plantation timber. This is self evident.

Q21. General comments

not answered

Q22. Attach your supporting documents (Document 1) not answered

Q23. Attach your supporting documents (Document 2) not answered

Q24. Attach your supporting documents (Document 3) not answered
