

To Whom it May Concern,

I wish to express my concerns about the management of the South East forests. I am very angry about the proposed logging of forests in the South East and in particular the forests around Corona Lake.

This area is a major tourist attraction, is home to a diversity of native animals, is the spiritual home of the local ~~Ab~~ First Nation people.

Providing funding to a system that is not sustainable is short sighted and frankly a waste of tax payers money.

I am urging this government to reconsider the decision of logging and revise plans for forestry management that reflects the needs and wishes of the community.

Thank you for considering this.

Yours Sincerely
Caroline Long
