To whom it may concern,

I am writing to ask that logging does not go ahead in Corrunna Forest. These are the reasons why this issue is important to me.

I am a Support Worker in the community and I place a significant value in the local forests as a way to balance the mental health of my clients and myself. We often go walking and for a picnic on the shores of Corrunna lake and it just wouldn't have the same calming affect if there were no trees.

Our local community depends on the natural environment for tourism and we need our forest for oxygen ~~and~~ to breathe - for us to breathe and our animal friends to breathe.

We need the forest for HEALING and GROUNDING and that is why we choose to live here.
 about Thanks for your time, I trust you will make the right decision.

for the people of our community.

Kindest regards,

Jade.
