To whom it may concern,

Here's four reasons why I'd prefer you didn't log Coruna.

1. The impact on tourism.
  - Third biggest employer in the region.
2. The destruction of habitats and endangerment of species.
  - eg white bellied sea eagle, southern brown bandicoot,
3. Unsustainable practices.
  - Since public forestry has existed forests have been logged faster than they can grow.
4. Disregard for Cultural Value.
  - the community values the forest as a place of natural beauty and of ancient heritage.
