Subject: Save our tiny remnant of forests for us and our children! Don't renew the RFAs!

The NSW Regional Forest Agreements (RFAs) are not in the best long term interest of the environment, the economy or our society! Short term gain from logging which is actually very little, there are not many jobs associated with it, can never compensate for the loss of the beautiful environment and ongoing extinction of species! Even if we just look at the economics, the long term returns form domestic and international tourism will exceed that from logging. Woodchips can be sourced anywhere in the world, you can only see koalas, gliders, wallabies, kangaroos, echidnas in Australia!

Logging of native forests must be stopped before we the owners i.e. the general Australian public, lose all of the benefits for the profit of a few individuals.

I confirm that my submission does not contain sensitive information and can be published in full on the Environment Protection Authority and/or the Department of Primary Industries website.

I understand that the Environment Protection Authority, Department of Primary Industries and/or the independent reviewer may contact me about my submission.

Yours sincerely, Evan Christen New South Wales, ██████████
