- Q1. **First name** [REDACTED]
- Q2. **Last name** [REDACTED]
- Q3. **Phone** [REDACTED]
- Q4. **Mobile** not answered
- Q5. **Email** not answered
- Q6. **Postcode** [REDACTED]
- Q7. **Country** not answered
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**
not answered
- Q10. **Stakeholder type - Staff**
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** No
- Q14. **Can the EPA make your submission public?** Yes, but anonymous
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**
Impact on forestry management practices related to clearfelling, harvesting immature/ small sized timber, inadequate protection of waterways, inappropriate overuse of herbicides for weed regrow this after harvest, inadequate protection of habitat.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**
not answered

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

not answered

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

Sounds good but would depend on whether it actually works to provide adequate protection.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No: we need to stop harvesting from non regrow this areas altogether. I'm not sure how you could increase intensity in regrowth he blackbutt dominated areas, it's already pretty heavily logged/clearfelled.

Q21. General comments

I am concerned about forestry practices over the past few years in the local area. It's really important to me that harvesting is slowed and clearfelling is not used at all. I do believe that forestry is an important industry but am saddened when I see poor land management and unsustainable practices without proper protection for waterways, native animals and regeneration.
