Q1. <b>First name</b>	Paula
Q2. <b>Last name</b>	Flack
Q3. <b>Phone</b>	██████████
Q4. <b>Mobile</b>	not answered
Q5. <b>Email</b>	████████████████████
Q6. <b>Postcode</b>	████
Q7. <b>Country</b>	australia
Q8. <b>Stakeholder type</b>	Individual
Q9. <b>Stakeholder type - Other</b>	not answered
Q10. <b>Stakeholder type - Staff</b>	not answered
Q11. <b>Organisation name</b>	not answered
Q12. <b>What is your preferred method of contact?</b>	Email
Q13. <b>Would you like to receive further information and updates on IFOA and forestry matters?</b>	Yes
Q14. <b>Can the EPA make your submission public?</b>	Yes
Q15. <b>Have you previously engaged with the EPA on forestry issues?</b>	Yes
Q16. <b>What parts of the draft Coastal IFOA are most important to you? Why?</b>	not answered
Q17. <b>What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?</b>	not answered

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

not answered

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

not answered

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

not answered

---

**Q21. General comments**

I do not support the remake of the IFOA and strongly oppose the ongoing destruction of public native forest under the blatant lie of ecologically sustainable forest management. I have lost confidence in the government and even the EPA to act responsibly to ensure EFSM and compliance of logging rules. The plan to clearfell 140,000 hectares of coastal forests between Grafton and Taree; 're-map and rezone' old-growth for logging; reduce headwater stream buffers; permit the logging of giant trees and approximately doubling the intensity of logging in the 'selective harvesting zone' is anathema to me. I want to see: 1 An immediate end of logging of public native forest and a complete transition to a 100% plantation based timber industry in NSW. 2 The transfer all existing subsidies from native forest logging into management and rehabilitation of public native forests. 3 Transfer public native forests to protected areas when the RFAs expire. 4 The creation of the Great Koala National Park and the Great Southern Forests National Park as proposed by the National Parks Association of NSW. 5 A review of the logging industry considering climate change, conservation, socio-economic issues and support for the logging industry, as recommended in the Waller report into the RFA consultation.
