

## Request for a site-specific biodiversity condition, under condition 21 of the Coastal Integrated Forestry Operations Approval

Under condition 31.3 of 'Protocol 31: Matters covered by the approval', the EPA may specify the information **FCNSW** must provide when requesting a **site-specific biodiversity condition** to inform consultation on and development of the condition.

The form below applies to any request for a **site-specific biodiversity condition** under condition 21.2 of the **approval** for greater gliders (*Petauroides volans*). This form replaces any other information required to be provided to the EPA under condition 31.3(1)(b) of 'Protocol 31: Matters covered by the approval'.

Terms in bold and italics in this form are as defined in Protocol 39 of the **approval**.

<b>Species name</b>	Greater glider ( <i>Petauroides volans</i> )
<b>Site, species, records or area to which the request applies</b>	All relevant <b>records</b> of the Greater Glider ( <i>Petauroides volans</i> ) in the <b>Coastal IFOA Region</b> .  For the purposes of this <b>site-specific biodiversity condition</b> , areas mapped in the 'Greater_Glider' <b>spatial dataset</b> are taken to be relevant <b>records</b> of the Greater Glider.
<b>Date of request</b>	1 February 2024
<b>FCNSW contact officer</b>	Dean Kearney
<b>FCNSW approval</b>
